Glenmore Mansion

Glenmore Chapter's mission is to restore and maintain Jefferson County's only house museum, Glenmore Victorian Mansion, so that future generations may be able to study and enjoy one of the best examples of Victorian architecture in the southeast.

Glenmore Victorian Mansion was built by John Roper Branner in 1869. Mr. Branner was instrumental in bringing the railroad to this area, and that played a very important part in the growth and development of Jefferson County and all of East Tennessee.

You can participate in the preservation of this historic site by becoming a member of the Glenmore Chapter of the Association for the Preservation of Tennessee Antiquities.

Several categories of membership are available as described on the opposite page. Membership entitles you to free entry to all APTA sites, exclusive of special events. The additional sites are
